YSKAR

HYBRID TECHNO: HYPNOTIC TECHNO & HARDGROOVE

Originally from France and now based in Switzerland, YSKAR builds a sound identity at the crossroads of hypnotic techno and hardgroove.

Through a hybrid techno, he explores the contrasts between hypnotic repetition, punchy grooves and deep bass. His world plunges into dark, immersive atmospheres, where textures evolve and rhythms transform, creating a sonic tension in constant progression.

A singular musical approach, driven by raw energy and a constant search for new sonic dimensions.
